

The Pumps with Nine Lives

Model: 7850
Modular Pressure Unloader

Specs

Max Flow:	6 gpm
Min Pressure:	100 psi
Max Pressure:	4000 psi
Inlet Port Size:	0.5
Discharge Port Size:	0.37
Type of Accessory:	Unloader
Material:	Brass (BB)

Description:

This Pressure Sensitive Regulating Unloader is a special modular design that mounts directly onto the manifold head of the plunger pump model series 5CP (EXCEPT: 5CP6120). This unloader maintains set system pressure while the gun is in use and drops to low pressure in by-pass when the trigger is released or an obstruction occurs downstream. 5-10% by-pass is recommended for optimum performance. This unloader comes with a built-in fixed chemical injector.

Accessory to be used with these Pumps:
