

NORTH AMERICAN FIRE HOSE

The difference is...*your* margin of safety.

Dura-Built 800™

EPDM Rubber Lining/Nylon 6-6 Double Jacket

Dura-Built 800™ FEATURES

- Exclusive **DURA-CORD®** advanced, air-textured Nylon 6-6 continuous filament warp yarns, resulting in superior toughness, abrasion resistance, cut resistance, tear strength and heat resistance when compared to competitive nylon, spun polyester, or filament polyester warp constructions. **DURA-CORD®** is the registered trademark for NAFH. Fire hose sold under this brand is specifically manufactured by NAFH.
- Unique **Ultra-Shield™** high performance polymeric coating seals each and every fiber in the bundle, further improving the abrasion resistance, reducing moisture and chemical absorption, and providing vivid color-coded identification.
- EPDM rubber lining is unaffected by Ozone deterioration, and is one component in the **Friction Fighter System™**, creating an extremely smooth waterway surface, thereby reducing friction loss and significantly improving nozzle performance.

- The **Dura-Bond™** vulcanized adhesion system, which creates both a mechanical and chemical bond between the EPDM lining and the jacket, reduces the probability of delamination as is experienced with competitive adhesive bonded rubber lined constructions.
- The result is an extremely strong and flexible hose with exceptional heat, abrasion, chemical and kink resistance.
- As the name implies, this product is built for durability.
- Both the hose and couplings are made in the USA, performance shall meet and exceed NFPA 1961 standards.

Applications: Attack and CAFs

Available in 50 and 100 foot lengths

 **FAMILY OWNED
AMERICAN MADE**
