Rubber Fab

a Garlock Hygienic Technologies company

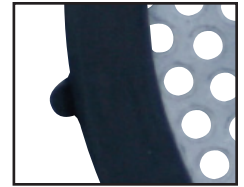

New to The Rubber Fab Gasket Family!

Rubber Fab's Camlock Screen and Perforated Plate Gaskets are the gasket of choice for applications such as tanker truck fluid transfer to your plant. Great for loading and unloading from tanker to silo. The centering knobs on the side of the Camlock Gaskets make for easier installation and removal.

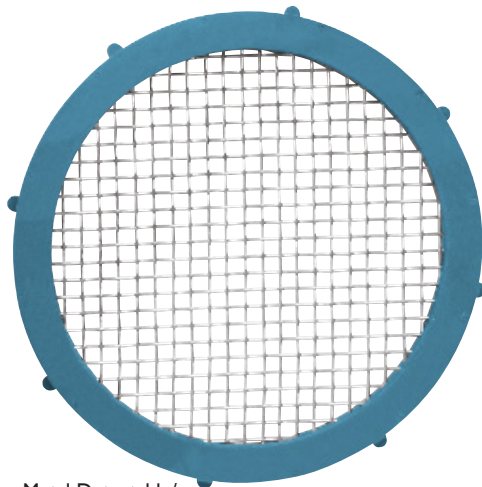

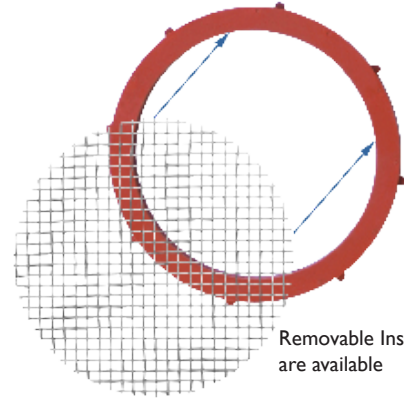

Camlock Screen Gasket Specifications

Rubber Fab offers a complete line of Camlock Screen Gaskets specifically designed to protect your pump during transfer of materials from tanker to silo. The extended **sock screen** mesh gasket offers up to 300% more open area for 300% more soil collection capability than conventional screens.

- Available in the following materials: Buna, EPDM, FKM Fluoroelastomer, Platinum Silicone
- Detectomer® Metal Detectable/X-ray Inspectable Buna and Silicone
- Screen Gaskets are offered in 10 - 100 mesh
- Available in the following sizes: 1", 1-1/2", 2", 3", 4", and 6" (Consult Factory for 6")
- Sock Screens are available in 6" lengths as a standard stock. Consult factory for other lengths.

Centering Knobs on the side of all gaskets make for ease of installation and removal.
