# INDUSTRIAL HOSE

TEXCELINDUSTRIAL.COM

Founded in 1981, Texcel offers a full line of industrial hose, fluid sealing products and hydraulic solutions.

Backed by "The Texcel Guarantee," Texcel has become known for delivering exceptional customer support and providing in-depth inventory of leading edge products to respond to customer demand—whether a quick solution to fill a product gap or as a full line supplier. Texcel's commitment to making a difference for customers is evident in every aspect of the business—particularly in building partnerships of trust to support customers' success.

Texcel's customers have access to a full line of high-quality products and the same error-free service and personalized support they have come to expect from Texcel for more than 35 years.

### **100% SAME-DAY SHIPPING\***

By ordering from Texcel, there are no delays in shipping your stock and priority orders, meaning your shipment arrives faster for orders received by 5 p.m. CST.

### 24-HOUR RESPONSE TEAM

Whether you have an emergency or simply need dependable products quickly, our team is available around the clock to make sure you receive the products and services you need.

### LARGE INVENTORY

We keep deep product inventories, which are strategically located at our regional warehouses, so you will always have the product you need, when you need it most.

## NOTES

## **TEX-FUEL** Fuel Transfer Hose

A multi-use hose for transporting leaded, unleaded, lead substitutes, lowpressure brake fluid or diesel. Used in farm and barrel pump applications, as well as construction and industrial service where UL approval is not required.

### **TECHNICAL DATA**

| Tube           | Black, NBR (ARPM Class A)                                                           |

## **TEX-F.O.D.** Fuel Oil Delivery Hose

Designed for the transfer and delivery of fuels, oils, kerosene, diesel and other petroleum-based products for home, commercial, marine and industrial service. Its braided synthetic reinforcement allows for extreme flexibility, reduced twisting and ease of handling, while maintaining kink resistance. Drivers will prefer this hose because of its abrasion and oil resistance and 250psi working pressures in all sizes.

## GREEN INITIATIVES

As leaders in the industry, we feel obligated to do our part to protect our natural resources. Our sustainability efforts begin in the research and development phase and extend to creating innovative ways to recycle and reuse our products. We recycle all of our used materials, including fittings, bands and straps, and have a corporate paper recycling program.

## **GAMMA<sup>™</sup>-BLEND** 400psi Blender/Fracturing Hose

A rugged hose designed for blender/fracturing operations in oilfield and gas exploration applications. The abrasion-resistant cover is constructed to withstand extended exposure to harsh, abrasive conditions typically seen in oilfield fracturing operations. Designed for the transfer of 98% water and sand mixtures, oil slurries and crude oil.

## **TEX-OSD 250** 250psi Oil Suction & Discharge Hose

Smooth bore dock hose with high strength construction and 250psi working pressure for the longest possible service life under severe conditions. Meets U.S.C.G. certification requirements when assembled per USCG 33CFR 154.500 specifications.

## **TECHNICAL DATA**

SIGMA-DUTY MAX<sup>™</sup> NBR Suction Hose

Duty Max is a heavy-duty, all-weather, suction hose for use in liquid manure handling, septic and wastewater handling, water suction, and general oilfield applications. Please note that service life may vary based on media being conveyed and operating conditions. The PVC helix makes for increased toughness over rough surfaces and around corners making it the perfect product for harsh conditions.

## **SIGMA-TDG™** Tank Drop Hose

High quality tank drop hose designed with specially compounded, non-permeable polyurethane, designed to be compatible with gasoline, diesel and most biofuels, such as ethanol (up to E98) and biodiesel (B100 meeting ASTM D-6751). Extremely flexible, even in sub-zero temperatures.

## **SIGMA-TDHD™** Heavy-Duty Tank Drop Hose

High quality gasoline tank drop hose that is lightweight and flexible with a high abrasion resistant helix for easy drag and handling. Flexible, even in sub-zero temperatures. It's suitable for the transfer of gasoline, ethanol blends (up to E15) and other petroleum products with an aromatic content of 40% or less.

## CAUTION

Hose fabrications should be performed only by experienced personnel. Static wire must be properly embedded, grounded and tested prior to use to assure grounding of hose and hose assembly.

This lightweight drop hose is designed for higher working pressure applications where 150psi is desired. It's suitable for the transfer of gasoline, ethanol blends (up to E15), and other petroleum products with an aromatic content of 40% or less in both drop and pump off service applications. Its rugged and abrasion-resistant construction allows for a low coefficient of friction for ease and maneuverability.

Medium-Duty Yellow Vapor Recovery Hose

High quality vapor recovery hose for medium-duty applications. Specially compounded, non-permeable polyurethane designed to be compatible with gasoline, diesel and most biofuels, such as ethanol (up to E98) and biodiesel vapors (B100 meeting ASTM D 6751). Extremely flexible, even in sub-zero temperatures.

# **SIGMA-DUTY MAX™**

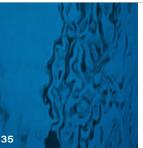

### NBR Suction Hose

Duty Max is a heavy-duty, all-weather, suction hose for use in liquid manure handling, septic and wastewater handling, water suction, and general oilfield applications. Please note that service life may vary based on media being conveyed and operating conditions. The PVC helix makes for increased toughness over rough surfaces and around corners making it the perfect product for harsh conditions.

## **TECHNICAL DATA**

PVC with high tensile polyester

IARGE<sup>™</sup> - WATER LOT

ds on actual application

# SIGMA-RH DISCHARGE™

Heavy-Duty Red PVC Lay-Flat Discharge Hose

A heavy-duty PVC lay-flat hose designed for higher pressure applications. The exclusive "through the weave" process ensures the highest quality and durability. An ideal hose for pump discharge, tank cleaning, dewatering, irrigation and wash down applications.

## **TECHNICAL DATA**

HARGE HOSE -<ID>- 150

as a fire hose

## SIGMA-PVC AQUA™

PVC Water Suction Hose

Heavy-duty suction and discharge hose for use in a variety of industries, such as rental pumping equipment and applications where the hose needs to slide easily, or visual confirmation of material flow is necessary.

## SIGMA-CLAMP™ Double Bolt Spiral Clamp

Double bolt spiral clamps are recommended for use with Texcel's SIGMA-Series PVC hoses with convoluted cover.

## WORKING PRESSURE RECOMMENDATIONS

Working pressures are in accordance with ARPM design safety factors at ambient temperatures (approximately 70°F). Texcel cautions against using a hose outside the stated temperature limits. Even within these limits, coupling type and hose size can negatively impact performance at higher temperatures. For optimum performance and safety, we recommend reducing the maximum working pressure as indicated below:

80° to 150°F – Reduce working pressure by 15%
150° to 225°F – Reduce working pressure by 30%
Over 225°F – Reduce working pressure by 50%

## CAUTION

Consult the Chemical Resistance Chart and the Safety Warning for each application. It is advisable to test the tube material under actual service conditions prior to initial use.

# GAMMA<sup>™</sup>-FLEX UHMW

Ultra-High Molecular Weight Polyethylene Chemical Hose

A more flexible chemical hose designed to handle 98% of all chemicals, solvents and corrosive liquids in both pressure and suction service.

## **SIGMA-POLY-U™** Lightweight Polyurethane Hose

Lightweight Polyurethane Hose

Extremely flexible hose, ideal for leaf collection, lawn cleaning and concrete surface preparation equipment. The smooth bore polyurethane tube allows for high abrasion resistance and unrestricted air flow.

## **SIGMA-FD™** FDA PVC Food Grade Suction Hose

Heavy-duty, food grade suction hose for dry wet material applications. Hose complies with applicable FDA and 3A requirements as well as USDA for use in meat and poultry plants. Clear PVC and clear helix construction allows for visual confirmation of material flow. Smooth bore eliminates material build up. Heavy corrugation provides high flexibility.

## SIGMA-FDW<sup>™</sup> FDA PVC Grounded Food Grade Suction Hose

Heavy-duty, food grade suction hose with embedded copper grounding wire for dry wet material applications. Hose complies with applicable FDA and 3A requirements as well as USDA for use in meat and poultry plants. Clear PVC and clear helix construction allows for visual confirmation of material flow. Smooth bore eliminates material build up. Heavy corrugation provides high flexibility. Embedded wire prevents static electricity build up.

### **TECHNICAL DATA**

| Construction  | Corrugated, clear, flexible PVC with smooth bore and a rigid, clear PVC right-handed helix with embedded copper wire for static dissipation |

SBR Vacuum Hose

Ultravac SBR<sup>™</sup> is a specially compounded vacuum hose that is suitable for use in a multitude of wet and dry material applications. Being lightweight and flexible, Ultravac SBR™ is the ideal hose for vacuum trucks, hydro-excavators, and sewer cleaning equipment. Its static dissipative carbon black tube makes it suitable for handling sand, gravel, dry cement, iron chips, grains and other light abrasives.

## SIGMA-ULTRAVAC<sup>™</sup> Polyurethane Vacuum Hose

Heavy-duty, abrasion-resistant suction hose for use in a variety of wet and dry, industrial vacuum applications including: vacuum trucks, hydro-excavators, sewer cleaners, street sweepers. SIGMA-ULTRAVAC™ is ideal for handling a wide range of materials, such as crushed rock, sand, pea gravel, dry-cement, grains and slurries. Made of with a permanently conductive tube that remains flexible at low temperatures for ease of handling.

Polyurethane Material Handling Hose with PVC Cover

Abrasion-resistant, polyurethane tube for material handling in dry applications, such as sandblast recovery lines, roof rock cleaning and other abrasive applications. Made of static-dissipating material that remains flexible at low temperatures for ease of handling.

## **TECHNICAL DATA**

| Construction  | Black, flexible PVC and smooth with black, rigid, right-handed helix and smooth, polyurethane liner |
|---------------|-----------------------------------------------------------------------------------------------------|
| Safety Factor | 3:1                                                                                                 |
| Temperature   | -40°F to +150°F                                                                                     |
| Compared To   | UBK                                                                                                 |
| Safety Note   | Service temperature depends on actual application                                                   |

Heavy-Duty Polyurethane Material Handling Hose

Premium-quality, material handling hose designed with a thick, heavy-duty, smooth polyurethane lining. Ideal for dry applications where high abrasion resistance is required, as well as flexibility in sub-zero temperatures.

## **GAMMA<sup>™</sup>-HTA** Hot Tar and Asphalt Hose

This rugged hose is specifically designed for the transfer of petroleumbased products such as high temperature asphalt, tar, and hot oils. Suitable for suction and discharge service on rail transport cars, tank trucks, bulk stations, storage tanks and disposing units.

## GAMMA<sup>™</sup>-COMM DISCHARGE

Commodity Discharge Hose

Soft-wall hose designed with a high abrasion-resistant tube. Ideal for applications where the discharging of wet or dry abrasive media is required.

GAMMA<sup>™</sup>-COMM DISCHARGE

#### IR/SBR,

1 DISCH - BULK E HOSE STATIC PSI W.P.

## GAMMA<sup>™</sup>-BLACK COMM

Black Commodity Suction Hose

A hose similar to our renowned "TEX-COMMODITY" green suction hose, but with a black cover and tube, made of static-dissipating materials where food and potable water features are not necessary.

## GAMMA<sup>™</sup>-WIRE CRETE

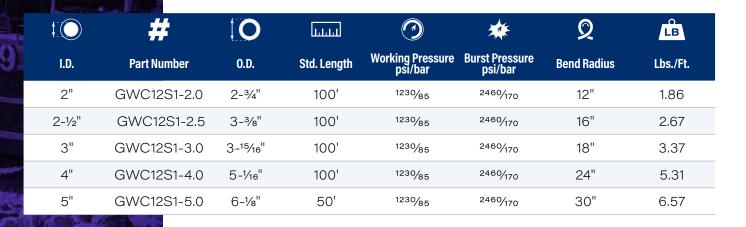

Wire Concrete Placement Hose

A heavy-duty hose designed to handle the most abrasive applications and weather conditions. Suitable for handling wet concrete in areas where flex is critical. Ideal for use on high pressure concrete pumps or boom trucks where a tough, durable hose is required for high pressure concrete pumping and placing applications.

## SIGMA-DUTY MAX™

NBR Suction Hose

Duty Max is a heavy-duty, all-weather, suction hose for use in liquid manure handling, septic and wastewater handling, water suction, and general oilfield applications. Please note that service life may vary based on media being conveyed and operating conditions. The PVC helix makes for increased toughness over rough surfaces and around corners making it the perfect product for harsh conditions.

## **TECHNICAL DATA**

| Construction  | NBR/PVC tube with a PVC helix                                                                 |

## CERTIFICATIONS & AGENCIES

### SATURATED (NOT SUPER-HEATED) STEAM WARNING

Steam heat is hotter than 212°F and increases in temperature as pressure increases.

Consult with your coupling manufacturer to make sure the correct fittings are used for the application and for guidelines on proper assembly techniques.

If not controlled properly, exposure to steam can be hazardous and could cause serious injury or even death. In order to avoid serious injury or death, proper hose selection, installation, usage and maintenance is necessary.

## **TEX-STEAM**

Steam Hose

Rugged, wire-braid steam hose recommended for saturated and superheated steam applications in chemical plants, shipyards and industrial plants.

## BALTHAZAR™ Winery Hose

BALTHAZAR<sup>™</sup> winery hose is a smooth covered hose formulated for the suction and delivery of wine, fruit juice, and soft drinks. The BALTHAZAR<sup>™</sup> hose has a white, smooth EPDM tube to ensure food quality and is odorless and does not alter taste. Its high working temperature allows for the sterilization of the hose with steam at 230°F for 30 minutes. Meets FDA title 21 part.177.2600(e) for liquid foods, BfR, ADI free, EC 1935 / 2004.

## BALTHAZAR<sup>™</sup> HD

### Heavy-Duty Winery Hose

Balthazar<sup>™</sup> HD winery hose is a heavy-duty corrugated hose formulated for the most abusive applications in the suction and delivery of wine, fruit juice, and soft drinks. The Balthazar<sup>™</sup> HD hose has a white, smooth NBR tube to ensure food quality and is odorless and does not alter taste. It has a higher working pressure to help speed up loading and unloading times. The UHMWPE cover not only dramatically increases its abrasion resistance but is antimicrobial and offers increased dragability. The polyamide helix also makes this hose crushproof. Its higher working temperature allows for the sterilization of the hose with steam at 230°F for 30 minutes. Meets FDA title 21 part.177.2600(e) for liquid foods, BfR, ADI free, EC 1935 / 2004.

## **ELIXIR™** Distillery Hose

ELIXIR<sup>™</sup> distillery hose is specially formulated for the suction and delivery of alcohols up to 96%, wine, beer, potable water, and other related foodstuffs. The ELIXIR<sup>™</sup> hose has a clear, UHMWPE tube to ensure food quality and is both odorless and does not alter taste. Its higher working temperature allows for it to be sterilized with steam at 230°F for 30 minutes. Meets FDA title 21 part.177.2600(e) for liquid foods, BfR, KTW, EC 1935 / 2004.

## **DAIRY-KING™** Milk Hose

DAIRY-KING<sup>™</sup> milk hose is specifically designed for the suction and delivery of milk and other fatty foods. The DAIRY-KING<sup>™</sup> hose has a white, smooth, NBR rubber tube to ensure product quality, is odorless and does not alter taste. Its blue, smooth, cloth impression EPDM rubber cover offers abrasion-, ozoneand weather-resistance. This hose can be sterilized with steam at 230°F for 30 minutes. Meets FDA title 21 part.177.2600(f) for fatty foods, BfR, ADI free, D.M. 21/03/73, EC 1935 / 2004. Hose conform to 3A standards.

## SIGMA-FD<sup>™</sup> FDA PVC Food-Grade Suction Hose

Heavy-duty, food-grade suction hose for dry/wet material applications. Hose complies with applicable FDA and 3A requirements as well as USDA for use in meat and poultry plants. Clear PVC and clear helix construction allows for visual confirmation of material flow. Smooth bore eliminates material build up. Heavy corrugation provides high flexibility.

## **SIGMA-FDW**<sup>™</sup> FDA PVC Grounded Food-Grade Suction Hose

Heavy-duty, food-grade suction hose with embedded copper grounding wire for dry/wet material applications. Hose complies with applicable FDA and 3A requirements as well as USDA for use in meat and poultry plants. Clear PVC and clear helix construction allows for visual confirmation of material flow. Smooth bore eliminates material build up. Heavy corrugation provides high flexibility. Embedded wire prevents static electricity build up.

#### **TECHNICAL DATA**

### SATURATED (NOT SUPER-HEATED) STEAM

Steam heat is hotter than 212°F and increases in temperature as pressure increases.

Consult with your coupling manufacturer to make sure the correct fittings are used for the application and for guidelines on proper assembly techniques.

If not controlled properly, exposure to steam can be hazardous and could cause serious injury or even death. In order to avoid serious injury or death, proper hose selection, installation, usage and maintenance is necessary.

## **TEX-WASHDOWN**

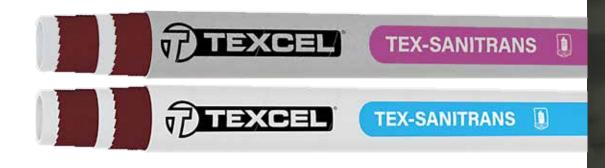

300PSI Washdown Hose

TEX-WASHDOWN hose is the perfect solution for conveying water up to 199°F (93°C) for washdown service in dairies, creameries, breweries, distilleries, meat packing facilities, and food processing plants. Its high-quality, white EPDM cover offers mild abrasion-, ozone-, and weather-resistance.

## **TEX-SANITRANS** FDA Sanitary Discharge Hose

Tube and cover designed for discharge or transfer of food and potable water. Highly resistant to animal fat and vegetable oils.

### **TECHNICAL DATA**

## **CORNUCOPIA**<sup>TM</sup>

All-Purpose Sanitary Hose

CORNUCOPIA<sup>™</sup> hose is a multipurpose sanitary hose. CORNUCOPIA<sup>™</sup> is formulated for use with fatty foods, wine, beer, potable water, and other related foodstuffs. The white, smooth EPDM tube ensures food quality by being odorless and does not alter taste. The UHMWPE outer cover not only dramatically increases the abrasion resistance of the hose but is Antimicrobial and offers increased dragability. The high working temperature allows for the sterilization of the hose with steam at 230°F for 30 minutes. Meets FDA title 21 part. 177.2600(f) for fatty foods, BfR, ADI Free, D.M. 21/03/73, EC 1935 / 2004.

## SIGMA-POLY MHH<sup>™</sup> Polyurethane Food-Grade Suction & Discharge Hose

Heavy-duty construction that complies with all applicable FDA requirements. Clear polyurethane and blue PVC helix construction allows for visual confirmation of material flow. Smooth bore construction eliminates material build up. Yarn reinforced for discharge applications. Heavy corrugation provides extra flexibility. Embedded wire prevents static electricity build up.

## **TEX-STEAM<sup>™</sup> FDA**

#### Food Grade Steam Hose

TEX-STEAM<sup>™</sup> FDA is a specially-compounded steam hose. It is suitable for the delivery of potable hot water mixed with steam and detergents. The main use is for washdown and sterilization in the food industry and manufacturing plants. TEX-STEAM<sup>™</sup> FDA has a white, smooth, food quality EPDM rubber tube and a blue, smooth, cloth-impression EPDM rubber cover for abrasion-, ozone-, and weather-resistance. Meets FDA title 21, part.177.2600 for aqueous foods.

## SIGMA-COIL™ Banding Coil

Use banding coils to level external corrugations, or when using sleeves or bands for increased surface area and improved compression and fitting retention. Each piece makes two hose ends (one hose assembly). Operator must cut into two pieces.

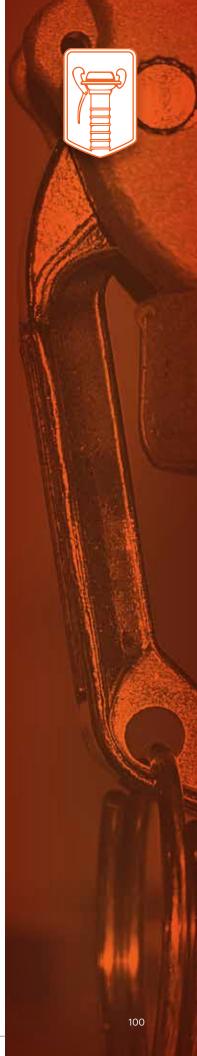

| Hose Diameter | Part Number | In./Each | Lbs./Each |

TEXCEL

Type Dust Cap

Dust caps are the solution to seal a hose assembly when it is not under pressure during transfer or storage. The aluminum constructed dust cap is compatible with type A & E. Also available in stainless steel and brass.

| 1 liter (l)      | = | 1000 milliliters (ml)   |
| 1 US quart       | = | 2 US pints              |
| 1 US gallon      | = | 4 US quarts             |
| 1 US gallon      | = | 3.78541178 liters       |

#### WEIGHT

| 1 milligram (mg) | = | 0.001 grams (g)      |
|------------------|---|----------------------|
| 1 gram (g)       | = | 0.001 kilograms (kg) |
| 1 gram (g)       | = | 0.035 ounces         |
| 1 ounce          | = | 28.349 grams (g)     |
| 1 ounce          | = | 0.0625 pounds        |
| 1 pound (lb)     | = | 16 ounces            |
| 1 pound (lb)     | = | 0.453 kilograms (kg) |
| 1 kilogram (kg)  | = | 1,000 grams          |
| 1 kilogram (kg)  | = | 35.273 ounces        |
| 1 kilogram (kg)  | = | 2.204 pounds (lb)    |
| 1 stone          | = | 14 pounds            |
| 1 short ton      | = | 2,000 pounds         |
| 1 metric ton     | = | 1,000 kilograms (kg) |

#### TEMPERATURE

## Texcel recommends using the following S.T.A.M.P.E.D. guide to determine the correct hose, coupling and attachment method for your intended application

| SIZE        | Hose length, fittings included                                |
|-------------|---------------------------------------------------------------|
|             | I.D.:                                                         |
|             | O.D.:                                                         |
|             | Hose tolerance:                                               |
| TEMPERATURE | Minimum temperature of mate                                   |
|             | Maximum temperature of mat                                    |
|             | Minimum environmental temp                                    |
|             | Maximum environmental temp                                    |
| APPLICATION | Indoor or outdoor use:                                        |
|             | Exceptional flexibility required                              |
|             | Exposure to factors such as e materials, acid or other corros |
|             | Food Grade quality? (Yes/No                                   |
|             | Other:                                                        |
| MATERIALS   | Solid? Specify:                                               |
|             | Liquid? Specify:                                              |
|             | Gas? Specify:                                                 |
|             | Chemical? Specify:                                            |
| PRESSURE    | Vacuum requirements? (Yes/I                                   |
|             | Working pressure of hose:                                     |
|             | Spikes in pressure:                                           |
| ENDS        | Style and material:                                           |
|             | Size:                                                         |
|             | Threads/bolt hole alignment:                                  |
|             | Attachment methods:                                           |
|             | Capped? (Yes/No):                                             |
| DELIVERY    | Date required:                                                |
|             | Quantity needed:                                              |
|             | Testing Required? (Yes/No) If                                 |
|             | Certification Required? (Yes/I                                |
|             |                                                               |
