

September 10<sup>th</sup>, 2018

Dear Valued Customer,

Proposition 65 became a California state law in 1986. Its official name is the Safe Drinking Water and Toxic Enforcement Act. The law requires a warning to be included on any consumer product that has the potential to expose Californians to certain chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

Certain Texcel products now display the below warning about chemicals or compounds found within our products.

CALIFORNIA PROPOSITION 65 WARNING: This product contains chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. For more information: [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

Most rubber, brass, steel and other similar materials contain one of the listed chemicals, but extensive testing to determine the exposure level is below Proposition 65 standards has not been completed by the industry. Therefore, we are placing this label on such products to comply with the California state law.

Please visit [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov) for more information, including the complete list of chemicals.

If you have any questions, please do not hesitate to contact us directly at 800.231.7116

Best regards,

Ed Nasta  
President
